

Field Book Update v1.50 Instructions

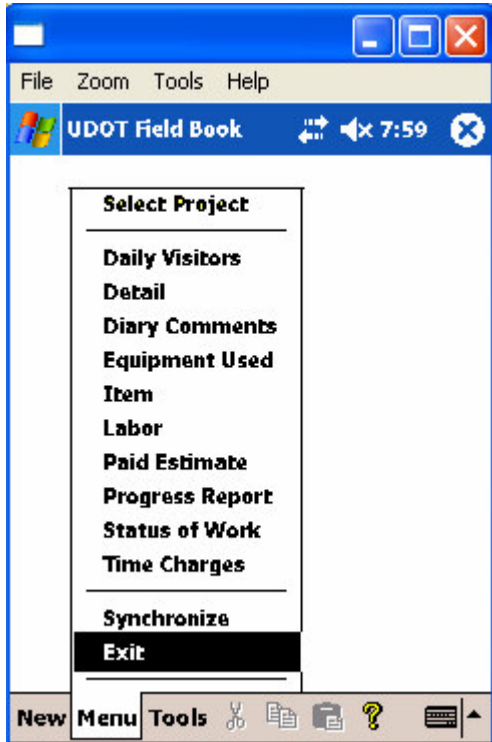

Connect with the Fieldbook Connection (Turn VPN on)

Synchronize 1.4

From the menu select Synchronize and perform the synchronization.

Disconnect the Fieldbook Connection (Turn VPN off)

Then Exit Field Book 1.4 this will remove the program from the hand held memory and make the update work better. (Select Exit from the menu)

Download 1.5

In the IPAQ Internet Explorer type: udot.utah.gov/go/fb

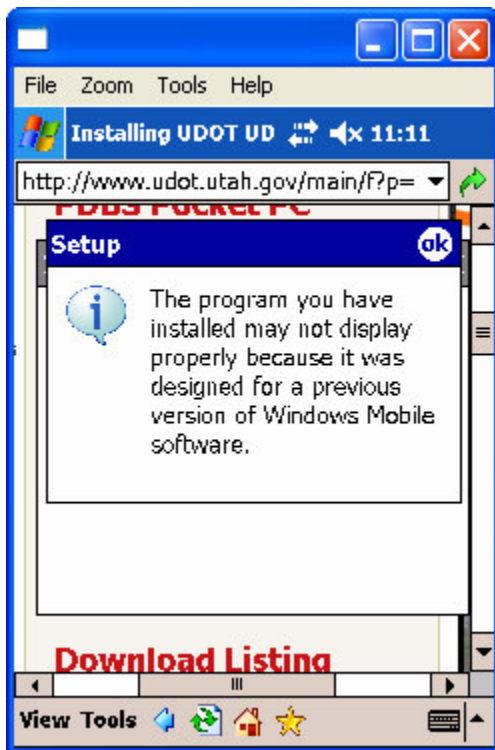

This will take you to the page that contains the field book 1.5 update.

Click on the Download Fieldbook 1.5

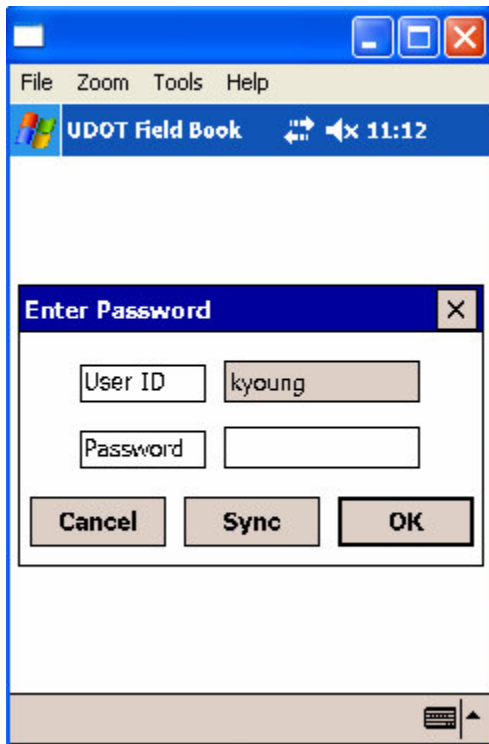

Download and Click Yes and Check Open file after download.

If you see this message Click OK and disregard.

Connect with the Fieldbook Connection (Turn VPN on)

Execute 1.5

Synchronize 1.5

Update completed.

NOTE: In order to run the new fieldbook application program you will be required to enter your PDBS/Fieldbook password. If you do not remember or need to reset your password call 801-965-4108. ---You do not need the password to synchronize--- If you call and change your password you will need to synch again before running the application.
